

Pick up after your dog

Did you know that about 1,000 tonnes of poo is produced by dogs in the UK every day, and that it is illegal not to clean up your dogs mess.

Dog mess on the ground has the potential to harm your health. You can also be issued with a fixed penalty notice for £40 if you do not pick it up and dispose of it properly.

Get into the habit now and start carrying a poop-scoop or bags with you when you step outside your house.

Have fun with your dog at the beach but please leave it clean for others to enjoy too.
