

# Keep your beach clean this winter

During the summer this beach has a Seaside Award. The award is only valid when all of the criteria can be met, but during the winter the beach can still be enjoyed, and you can help it achieve award status next year by following a few simple guidelines.

- ⇒ Help keep the beach clean and the seashore wildlife safe, by taking your waste home.
- ⇒ Keep the water and sand clean by picking up after your dog and using bins where available.

- ⇒ There are no lifeguards available at this beach. In case of emergency please dial 999 and ask for the coastguard.
- ⇒ If you notice that lifesaving equipment has been vandalised please report it to the beach operator or local authority.

- ⇒ No water quality samples are taken during the winter months. However, the water quality over the summer was good. Water quality samples will commence in June next year.
