

Make a seashore litter critter

You can keep the beach clean, and the seashore wildlife safe, by making a Litter Critter, then putting the litter that you use in the bin.

Helen Annan, Morecambe Bay Partnership

How to make a Litter Critter

1. Decide what seashore critter you would like to make, then look around the beach for useful bit of driftwood, shells, feather or litter.
2. Be careful what you collect. Steer clear of glass, old cans or anything that looks sharp or dirty!
3. Traffic cones make good hats and driftwood can give your critter extra support.
4. You may want to take some string and scissors with you to the beach to help make your critter.

Once you have made your Litter Critter, take a photo so you can show your friends, then take it apart and put the litter in the bin. If you would like to see it on our website, please e-mail the photo to beach@ksbscotland.org.uk
